Introduction

Sabre Technologies is an IT Services and Solutions company with operations in Sri Lanka and USA. With experience in servicing a wide and varying clientele in US East Coast, Sabre Technologies are now ready to work with UK & Irish companies as their technology partner to bring their innovations faster to the market at a lower cost to their customers.

Operating on an ISO 9001:2000 certified process framework and backed by one of the strongest companies in Sri Lanka; Sabre Technologies gives its customers the attention it expects from a smaller company and reliability of a large company.

While Sabre Technologies possess a strong skill set across industry standard technologies such as MS .NET and JEE, it also has specialized skills in RFID, NFC, Mobile Application development and building applications for SaaS model.

Keywords

RFID, NFC, Mobile Applications, SaaS, Retail, Manufacturing, Supply Chain, .Net, Java, PHP, JEE, JME
